NEWSLETTER

SEPTEMBER 1/92

SUMMER NOTES

There has been little activity since the last newsletter. Hope everyone has enjoyed the summer sun and forgotten about August's snow! There was a meeting in August at which ideas for programs for the coming year were discussed. At our first meeting in September, Steve and Frances (and possibly David) will report on their time at the PFLAG Conference in Seattle. Judging from the agenda for the Conference, they should have lots to tell us! We hope to see everyone back and feeling refreshed after the summer break. We also hope to welcome some new faces!

THE NEXT MEETING

WILL BE HELD

CHATELAINE PUBLISHES GAY POSITIVE ARTICLES

The September issue of Chatelaine contains two articles relating to gays and lesbians that are of interest to our members. The first is in their Parents & Kids section and is titled When Your Teen is Gay - A doctor's answers to parents' questions. It is sensitively written, makes the reader aware that many teens struggle to deny their homosexuality, and gives parents suggestions on how to respond if told a child is gay/lesbian. The second article is about k.d. lang and brings out the fact that she is a lesbian. This is done in a matter of fact, non-judgmental manner. It is the type of article that could give a young gay a positive role model and hope for the future.

It is fairly likely that Chatelaine will get some negative reaction to these articles. Members of PFLAG are urged to write to the magazine to praise them for publishing this positive material. (If you are concerned about seeing your name in print, request that it not be published but don't send an "anonymous" letter). The address to write to is:

Dear P-FLAG member:

I am a member of the Worcester, MA branch of P-FLAG, and I would appreciate your assistance in a project I am undertaking. **The study has been approved by National P-FLAG.** The project is concerned with the impact, on parents, of discovering that their children are homosexual.

I am also exploring the process of change that parents may go through, how much difficulty still remains, and what parents have learned about themselves as well as about their children. The findings may be published and/or presented at a conference, perhaps at a P-FLAG convention. I hope the results of the study will be of assistance to others who are trying to deal with their feelings and relationships. If you are married, please ask your spouse to answer as well. We would also welcome responses from other family members.

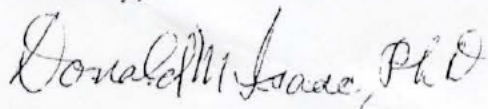

I realize that this questionnaire will take your time, thought and effort. Please be assured that your responses will be confidential and there will be no way of identifying anyone who responds. You may have resolved some of your feelings, you may still be struggling with some aspects of the problems experienced and may even still be in pain. Perhaps the questionnaire will help you explore some issues you still have.

If you belong to a P-FLAG chapter, please share copies of this letter and questionnaire with other chapter members and ask them to participate. We would appreciate it if this letter and questionnaire could be printed in a chapter newsletter so that it can have greater circulation. If you know parents who have homosexual children but who don't belong to P-FLAG, please send a copy of this letter and questionnaire to them. I hope they will join P-FLAG and find it as helpful as we have.

Please mail responses to me at the above address.

Thank you for your participation.

Sincerely,

Donald M. Isaac, Ph.D.
